

# 2018 IS THE CENTENARY OF THE NEW SOUTH WALES TEACHERS FEDERATION.

Together, we celebrate 100 years of Teacher Unity and the historic contribution Federation has made to the uplifting of teacher professionalism, highlighting the role of teachers in society, to emphasising the critical importance of public education and the need to ensure its universal access, as well as Federation's commitment to internationalism and the labour movement.

Reflecting on the past 100 years offers a unique lens through which to view the history of education and the contribution of teachers in New South Wales. It is an opportunity to affirm who we are as a professional organisation, and how we got here, and it is also an opportunity to mark out our path forward. 2018 is as much about the future, as it is about the pride we can embrace over what has been done in the past.

There a number of projects anticipated for 2018 that will CELEBRATE the history and success of the Teachers Federation, PRESERVE that history for future generations of members and ENGAGE everyone in the story of the Federation, and outlining a clear vision for the future of teacher unionism.

Federation looks forward to providing members with the validation they deserve for their personal and professional commitments to Australian education.
