

Develop a stronger strategic approach to Aboriginal education in your school

Use Federation's Aboriginal Education Profile (Aboriginal Education – 25 Year Approach: The Way Forward) at your workplace to:

- inform all staff and students about the importance of Aboriginal identity, belonging and connection to Country for Aboriginal Peoples
- assist with engaging and gaining the confidence of the local Aboriginal community
- establish an Aboriginal Committee so that Aboriginal perspectives are embedded in your school plan
- review your Aboriginal Education program

Find the Aboriginal Education Profile within the “Aboriginal Education – 25 Year Approach: The Way Forward” document in the Aboriginal Education section of Federation's website, nswtf.org.au.
